THE ULTRA DARK

Perma Soft-sided Light Reduction Shelter

The Ultra Dark Dock Shelter is the ultimate combination of a soft-sided shelter with rain dam as one unit. This shelter comes with light eliminating pleats on the head curtain and gap hooks for the side curtains. The Ultra Dark Shelter assist with the FDA compliance for food and pharmaceutical industries by eliminating light while providing a tight consistent seal and allowing full unobstructed access to the trailer.

FEATURES & OPTIONS

RAIN DAM PAD:

4 inch thick pad reinforced with armour clad belting provides wearability while creating downward pressure for a consistent seal across entire width of trailer top within standard range.

RAIN DAM HEAD FRAME :

Tubular steel peaked frame (1-1/2 x1-1/2)with 20 ga. galvanized steel cover, Galvanized steel frame gussets support the head frame independent of the foam side frames.

HEAD CURTAIN:

Choice of many heavy duty fabrics, with overlapping light reducing Perma Pleats and Perma wear flaps on each side at truck contact areas.

SIDE CURTAINS:

Side curtains are made from the same fabric as head curtain with fiberglass stays sewn in. Extra wear areas on bottom of curtains at critical truck contact points. Side curtain can be easily replaced.

SIDE FRAME:

Foam filled side frames, high density, full memory 55 lbs. foam with 2" x 6" or 8" wide pressure treated back boards.

Option: 16 gauge steel backing available.

PERMA GAP HOOK:

Perma Gap Hooks on the side curtains reduce air infiltration around the trailer door hinge gaps that can be equal up to a 18" x 18" hole in the building wall at each dock. Velcro in for easy replacement.

YELLOW GUIDE PATCHES:

18 oz. yellow vinyl, that is 9ft. on center so drivers can easily see them all the way back into the dock position.

BOTTOM DRAFT CUSHIONS:

Designed for an improved seal at the bottom of the shelter behind the side curtains. Independent of the side curtains for easy and economical replacement.

DECLINE OR INCLINE:

Tapered dock shelter projections are available to accommodate inclined or declined approaches.
