PERMA DOCK SHELTER

FEATURES:

Perma Dock Shelters are designed to service a variety of truck sizes and types, regardless of dock door size or bumper projection. As trucks back into the shelter, face curtains wrap around truck sides and top for positive weather protection ensuring reduced energy costs, loading safety, and product protection. The full trailer opening remains accessible for unrestricted loading and unloading. It can accommodate 8'6" wide trailers!

Perma Tech offers a wide variety of dock shelter cover fabrics and unit sizes to custom build a shelter suitable for even the heaviest traffic application to meet your requirements. All lumber frames are pressure treated, Scotch-ply fiberglass stays sewn into the face curtains plus a foam edge on both vertical side curtains maintain constant pressure against the truck for positive weather protection. Light transmitting panels on the top and side frames permit good visibility for safe loading. Perma Pleats on the head curtain and extra wear areas on the side curtains add durability at the critical truck contact points. Years of experience result in the proven craftsmanship and quality construction, giving you the best value for your investment.

(PSG) GROUND LEVEL SHELTER

The Ground Level Shelter is designed to seal a trailer at ground level openings. The shelter also forms a ground level canopy to protect personnel and loads from the elements when loading and unloading.

FEATURES AND OPTIONS

HEAD CURTAIN:

Choice of many heavy duty fabrics, all with fiberglass stays and Perma Pleat wear flaps on each side at truck contact areas.

SIDE CURTAINS:

Same fabric as head curtain with fiberglass stays. With extra wear area on bottom of curtains at critical truck contact points.

FOAM EDGE:

Fabric covered foam strip on leading edge of side curtains for a snug fit against trailer sides.

GUIDE STRIPE:

18oz Yellow for accurate truck positioning.

HEAD FRAME:

2" x 6" Pressure treated lumber, peaked at center to prevent snow and water build-up, and covered with a translucent panel to allow a lighted loading area.

SIDE FRAME:

2" x 4" Pressure treated lumber covered with a translucent panel for a safe, lighted loading area. Steel Frame Available.

Perma Tech is dedicated to manufacturing superior products. We strive to be responsive and consistently satisfy our customers' requirements.
