"The Preferred Loading Dock Equipment"

K YUH Yf Warrior Shelter

A YHJ' < ccX' Soft-sided dock shelter

The Weather Warrior Metal Hood Shelter commands respect for it's strength and functionality to protect the loading dock from all types of weather. Rain, Wind, Snow & Hail.

The Weather Warrior has you covered!

This Dock Shelter combines our Metal Hood with foam filled side pad, to fit your loading dock needs .

FEATURES:

All Metal Hood with 2" rain gutter

Versatile sides to enclose different style trucks

36" standard head curtain drop for various truck heights

The Weather Warrior is suitable for even the heaviest traffic applications. This premium shelter brings together the strength of a metal hood that can handle heavy snow and rain and a soft-sided shelter that can accommodate various truck heights.

The Warrior is effective and economical!

SALES & SERVICE BY:

The Weather Warrior Metal Hood Shelter is designed to accommodate a variety of truck sizes and types, regardless of dock door size or bumper projection. As trucks back into the shelter, face curtains wrap around truck sides and top for positive weather protection, ensuring reduced energy costs, loading safety, and product protection. The full trailer opening remains accessible for unrestricted loading and unloading.

METAL HOOD:

Made out of heavy gauge steel. Available in various projections that includes a 2" gutter .

WEAR FLAPS:

Wear flaps on head curtain and extra wear areas on the side curtains add durability at the critical truck contact points.

SOFT-SIDED FRAME:

Foam filled side pad, high density full memory foam with 2" x 6 " or 8" wide pressure treated back boards.

FOAM EDGE or OPTIONAL GAP HOOKS:

Fabric covered foam strip on leading edge of side curtains for a snug fit against trailer sides.

GUIDE PATCH:

18oz Yellow guide patch 12" high placed 9ft.on center for accurate truck positioning.

BOTTOM DRAFT CUSHIONS: Foam filled to seal off bottom of shelter. Independent of side curtains for easy and economical replacement. "NO STEP" printed on cushion for safety.

DECLINE OR INCLINE:

Tapered dock shelter projections are available to accommodate declined or inclined approaches.
