CROSS RINK DIVIDERS

Cross Rink Dividers, manufactured in Buffalo NY, are ideal for separating a full ice rink into three separate smaller rinks for the younger hockey players. They are made of 22oz. Black vinyl material with a foam core that gives the dividers the ability to keep the puck in play yet soft enough to be safe from contact in the event of a fall. Each set consists of 16 - 120" Long x 8" Wide x 12" High and 2 - 60" Long X 8" Wide X 12" High. The 60" Long section can be flipped over to allow for a pass through.

- Separates a full ice rink into three smaller rinks for the younger hockey players.
- Durable to hold up, yet soft enough to be safe in case of a fall.

Each set costs \$3,060.00 plus freight or it can be picked up at our factory. Call Perma Tech at 716-854-0707 to order your organizations dividers today.
