"Your Single Source for ALL Your Loading Dock Needs"

Weather Shield Dock Seal

FEATURES AND OPTIONS

Weather Shield Series is an effective and efficient dock seal for doors 14' or less that meets budget requirements and industry standards.

FABRIC & COLOR

Heavy Duty Industrial vinyl coated polyester
Standard color is Black

GUIDE STRIPES

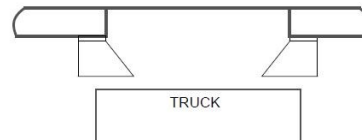

16"- 24" high and 4" wide yellow guide stripes that are 9" on center

SHELTER CONSTRUCTION

Wrapped and stapled construction
Pressure treated lumber backboard

WEDGED SIDE MEMBERS:

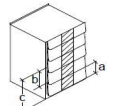

Wedge cut side members extend foam only into the door opening to effectively seal the trailer without subjecting wood backboards to damage from passing loads.

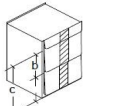

AVAILABLE OPTIONS

PERMA PLEATS:

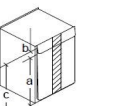

Perma Pleats are available in a variety of fabrics and in three over-lapping exposures passing loads. Overlapping flaps of material sewn to the base fabric increase durability and extend dock seal life.

FOAM HEAD MEMBER

For 12" wide for doors that are less than 9'0" high. Extra wide head members are available to allow for varied truck height coverage.

"F" SERIES HEAD MEMBER

The F series (NF, EF, F) is used when door sizes are over 9' 0". it extends over and down the face of the side pads to cover a wide range of truck heights and by adding Velcro slits with a rope pull-up system the "F" Series Header becomes adjustable.

DROP FLAP

A weighted drop flap can be sewn to the foam head pad to service an occasional lower truck.

PERMA PLEATS

Perma Pleats provide extra protection on the face of the dock seal

METAL HOOD

Metal canopy for extra weather protection from rain and snow.
